

AUTOMATION TIPS

A series of insights to help you improve your packaging lines and reduce challenges surrounding labor shortages and increased production demands.

MEET YOUR NEW WORKFORCE

Manufacturers are experiencing an unprecedented labor shortage like no other. When you can't find people to run your line, it's the perfect time to explore how automating your packaging line can reduce the constraints on your workforce and improve your throughput. Morrison has been automating the most laborious packaging processes for more than 50 years. When you need people, meet your new workforce with Morrison.

- Eliminate the need for operators to assist with lane combining and dividing.
- Eliminate problem areas with simple solutions that have fast ROI, such as rejecting down bottles off the line with our fixed guides.
- Move and space containers with drive units that create consistent spacing - every time - eliminating variables that create inefficiencies.
